

Appendix N

List of Preparers

The Interdisciplinary Team (IDT) for the Supplemental EIS is composed of personnel with skills related to the key issues. The IDT consists of a core team and an extended team of technical specialists. The core team is structured, by design, to be small, to facilitate efficiency and overall consistency. It is not meant to represent all the resource issues in the North Lochsa Face analysis area, or to indicate priority of resource emphasis.

The Interdisciplinary Team

Cindy Lane - District Ranger, Decisionmaker

Donna Bonzagni - Maps/Geographic Information Systems
