

Attachment – Divide

BACKGROUND

An effort to revise travel management in the Divide was originally initiated during the winter of 2000-2001. As part of that planning effort a series of public meetings regarding the proposal were held during the winter of 2000-2001. Based on public comments from the original scoping, 2 public-initiated alternatives began to emerge. The Capital Trail Vehicle Association, the Helena Snowdrifters and the Wild Divide Chapter of the Montana Wilderness Association submitted comments, initiating the formation of possible alternatives. Other alternatives included the existing condition alternative (no action) and a Forest Service alternative. Several hundred public comments were received in response to the 2000-2001 public scoping process. The comments generated from the 2000-2001 public scoping and the travel related comments from have been retained in our files and have been considered in the development of the proposed action.

INTRODUCTION

The following information includes the specifics of the Proposed Action for the Divide Travel Plan displaying the individual routes and their proposed availability (refer to attached maps).

As described previously in the Scoping Statement, we are defining roads as routes that are available to motorized vehicles consistent with state laws, motorized trails as routes that are available for vehicles 50 inches or less in width, and non-motorized trails as unavailable for motorized users.

In the following tables there is a column that describes the rationale for the proposed restriction. This rationale is specific to each route and directly ties back to the purpose and need of this project.

Table 1. Ten Mile Creek Motorized Roads and Trails

The following is the Proposed Action for the motorized roads and trails within the Ten Mile drainage. This table shows restrictions currently in place or proposed to be implemented.

Road Name & Number	PROPOSED ACTION				EXISTING CONDITION		
	Motorized Vehicle Over 50"	Motorized Vehicles Under 50"	Snowmobiles	Primary Reason for Restriction	Motorized Vehicle Over 50"	Motorized Vehicles Under 50"	Snowmobiles
Rimini # 695	open yearlong	open ¹ yearlong	restricted yearlong		open yearlong	open ¹ yearlong	restricted yearlong
Minnehaha #527	open yearlong	open ¹ yearlong	restricted 5/16-12/1		open yearlong	open ¹ yearlong	open yearlong

Table 3. North Divide Roads and Trails. The following is the Proposed Action for both the motorized roads and trails and non-motorized trails north of Highway 12 to the boundary with the Lincoln Ranger District. Excluded from this analysis are those National Forest System Lands within the Little Prickly Pear drainage. The Travel Management decision for that portion of the Helena Ranger District was made a part of the Soundwood Timber Sale. The existing condition is shown for comparison.
