

## SCHEDULE OF PROPOSED ACTIONS

These are the latest versions of the Schedule of Proposed Actions (SOPA) for the White River National Forest. We expect these scheduled activities to undergo site-specific environmental analyses within the near future. This list will be updated every three months.

The SOPA lists by Zone (East or West) a brief description of each project, the Ranger District and contact person, and the project location. The estimated dates when scoping may begin and when a decision will be made are noted. The status of the environmental analysis may include information on legal notices, dates of draft or final NEPA documents, dates of decision documents, and estimated implementation dates.

This schedule is not a NEPA document, nor is it a solicitation for comments. Comments addressed to the schedule do not provide standing for appeal purposes. The purpose of the Schedule of Proposed Actions is to provide you with information on whom to contact should you wish to become involved through site-specific comments. This only provides enough information to enable you to contact the proper person to become involved in the analysis and decision process on the forest. Comments received by project leaders, including names and addresses of those who comment, will be considered part of the public record on the proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Parts 215 or 217. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requestor of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within 30 days.

We welcome your interest and participation. We also encourage your involvement in each project that you are interested in. Your participation is particularly helpful during the early stages of project formulation known as “scoping”. It is during the “scoping” process that we define the Purpose and Need for the project, identify issues and define the extent of analysis that is needed. All projects are scoped separately from this SOPA. If you identify a project or projects that you are interested in, please contact the ID Team Leader shown on the schedule and provide project specific comments.

If you would like to be added to the mailing list for this SOPA, please contact Thomas Williams at the address listed inside this packet for the Supervisor’s Office of the White River National Forest or e-mail our office at [mailroom\\_r2\\_white\\_river@fs.fed.us](mailto:mailroom_r2_white_river@fs.fed.us).
