Sunday May 30, 2004
10:00 p.m.

The KP Fire is 90 percent contained at 15,181 acres. Cost of the suppression effort to date is \$3 million.

Fire fighters today completed containment line on the east flank of the fire primarily using existing trails and natural features. Remote access and rugged terrain slowed production. Little fire activity was observed inside the perimeter.

Tomorrow, ground crews will focus on bringing hose off of the lines and starting rehab efforts such as installing water bars.

NOTE: U.S. Highway 191 will remain closed for up to an estimated three weeks while cleanup continues at the site of a fuel spill.

Hannagan Meadow Lodge is open to people who have prior arrangements to visit.
