

TRAILS
MAZATZAL WILDERNESS

There is a network of some 240 miles of “system” trails serving the Mazatzal Wilderness Area and contiguous areas. Their condition varies from satisfactory to very poor. All trails are closed to motor vehicles and mechanical transport such as bikes.

Use a great deal of caution when traveling on backcountry trails such as this one and be aware of the risks you assume.

A few brief comments are in order about the following trail:

North Peak Trail 24: 3.5 miles in length. Middle section is very steep. East end is hard to find. West-to-east travel is recommended because of grade. Not Recommended For Horses. Elevation: 4,240 - 6,220 feet. Termini: **Mineral Creek TH**, and Trail 23 near Park.

No more than 15 people are allowed to be in a group. No more than 15 head of livestock are allowed in a group.
