

Antelope Lake Recreation Area

Plumas National Forest

Camping

A private concessionaire manages ? family campgrounds around Lake. There are approximately 194 family camping units and 4 group units. Campsites may be reserved through

Reserve USA (1-877-444-6777)

Each campground has piped water. Trailer sites are available. Trailers of up to 40 feet can be accommodated in some of the camping units. No hookups are provided. Facilities are usually open from Memorial Day to October.

Fishing

Hunting and fishing are regulated by the California Department of Fish and Game. Antelope Lake supports rainbow, German brown, and **kokanee salmon**. Antelope Lake is

stocked with rainbow trout annually.

Hiking

Hiking and backpacking are enjoyed by many visitors in this area.

The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact USDA's TARGET Center To file a complaint, write the Secretary of Agriculture, US Department of Agriculture, Washington, D.C., 20250, or call 1-866-632-9992 (voice), or 202-720-1127 (TDD). USDA is an equal employment opportunity employer.

Off-Road Vehicles

The use of off-road vehicles is restricted within the Bucks Lake Recreation Area.

Other Activities

Antelope Lake Recreation Area provides opportunities for many more recreation experiences for visitors. Boat launch ramp provides access to the water for fishing, water-skiing, sailing, or simply touring on boats. Visitors may also enjoy watching wildlife or campfire programs.

Supplies

Supplies can be purchased at the Antelope Store by Boulder Creek Campground or in the town of Susanville or Taylorsville.

Drinking Water

Only water from developed recreation sites is maintained for safe drinking. Open water sources are easily contaminated by human or animal waste. Water from springs,

lakes, and streams should be properly treated before drinking. One method of treatment is to boil water for five minutes or use approved filtration system.
