

## Summary of Recommended Actions

◆1991 - 2001 Monitoring Reports ◆

Umatilla National Forest

| MI # | Monitoring Item (MI) | Recommended Actions by Year |  |                                      |  |                   | Remarks  |
|------|----------------------|-----------------------------|--|--------------------------------------|--|-------------------|--|
|      |                      | Not Evaluated               | Continue to monitor  | Change Practice                      | Further Eval.  | Amend Forest Plan |  |
| 1    | Air Quality          | 1996                        | 1991<br>1992<br>1993<br>1994<br>1995<br>1997<br>1998<br>1999<br>2000<br>2001 |                                      |  |                   |  |
| 2    | Soil Productivity    |                             | 1997<br>1998<br>1999<br>2000<br>2001   | 1991<br>1993<br>1995<br>1996         | 1992<br>1993<br>1994<br>1995<br>1996                 |                   | 1991: reoccurring tractor based operations indicate problems meeting standards<br>1993: expand soil impact monitoring<br>1996: effectiveness monitoring needed   |
| 3    | Water Quantity       | 1997<br>1999<br>2000        | 2001   | 1998                                 | 1991<br>1992<br>1993<br>1994<br>1995<br>1996         |                   |  |
| 4    | Water Quality        | 1997                        | 2001   | 1994<br>1995<br>1996<br>1998<br>1999 | 1991<br>1992<br>1993<br>1994<br>1995<br>1996<br>2000 |                   | 1994: water quality practices effectiveness not demonstrated<br>1998: baseline fire and timber sale monitoring shows potential problems<br>2000: monitored BMPs effective, more complete Forest-wide review needed |

|      |  | Recommended Actions by Year                  |                      |  |  |                   |  |
|------|--|--|----------------------|--|--|-------------------|--|
| MI # | Monitoring Item (MI)                       | Not Evaluated                                | Continue to monitor  | Change Practice  | Further Eval.  | Amend Forest Plan | Remarks  |
| 5    | Stream Temperature                         | 1997   |                      | 1991<br>1992<br>1993<br>1994<br>1995<br>1996<br>1998<br>1999<br>2000<br>2001 | 1991<br>1992<br>1993<br>1994<br>1995<br>1996<br>1999<br>2000<br>2001 |                   | 1991: standards not met on some streams<br>1992: overutilization of riparian vegetation<br>1994: some streams frequently exceed standards<br>1996: State standards changed, additional streams exceed standards for longer periods<br>1997: problem meeting temp standards<br>2000: many streams not meeting temp standards<br>2001: most streams not meeting State temp standards |
| 6    | Stream Sedimentation                       | 1996<br>1997<br>1999<br>2000                 | 1998<br>2000         |  | 1991<br>1992<br>1993<br>1994<br>1995<br>1996                         |                   |  |
| 7    | Stream Channel Morphological Features      | 1997<br>1999<br>2000<br>2001                 |                      | 1994<br>1995<br>1996   | 1991<br>1992<br>1993<br>1994<br>1995<br>1996                         |                   | 1992: information indicates degraded stream condition on south end of Forest<br>1994: large wood and pool level lacking, mostly on south end of Forest   |
| 8    | Fire Effects – Wildfire on Water and Soils | 2000<br>2001                                 | 1993<br>1998<br>1999 | 1996   | 1994<br>1995<br>1996<br>1997   |                   | 1996: major fire on Forest, increased monitoring need<br>1997: evaluation of wildfire areas needed   |
| 9    | Riparian Vegetation                        | 1996<br>1997<br>1998<br>1999<br>2000<br>2001 |                      | 1993<br>1994<br>1995   | 1993<br>1994<br>1995<br>1996   |                   | 1993: riparian shrub impacts a concern   |

|      |                                    | Recommended Actions by Year                  |  |  |  |  |   |
