

Umatilla National Forest

# Schedule of Proposed Activities

## Fall 2004

---

Editor: Dave Herr

### A NEW LOOK FOR THE SOPA

The Forest Service is working on a standardized nation wide SOPA, and the Umatilla National Forest is one of the pilot forests testing the new format. This initial version will be refined and improved as needed. The Forest Service is also working on a World Wide Web interface that hopefully will be available later in the year. The website will allow the user to query SOPA information at the national, regional, forest and district level. If you have any suggestions or questions regarding the new format, please contact Linda Dillavou at (541) 278-3892 or [ldillavou@fs.fed.us](mailto:ldillavou@fs.fed.us).

### SOPA ON THE INTERNET

A copy of the SOPA is posted on the Umatilla National Forest's website at [www.fs.fed.us/r6/uma/projects/sopa/](http://www.fs.fed.us/r6/uma/projects/sopa/). An E-Mail Mailing List has also been developed so we can notify those with Internet access when an update has been posted to the Internet. If you have any comments on this web site, or would like to be added to the E-Mail list, please send a message to [ldillavou@fs.fed.us](mailto:ldillavou@fs.fed.us) or call Linda Dillavou at (541) 278-3892.

### FOREST PLAN REVISION

The Malheur, Umatilla, and Wallowa-Whitman National Forests are combining efforts to revise their Forest Plans. The current Forest Plans are near the end of their intended 15-year life, and will be revised to address the substantial resource and social changes on the three Forests as well as new scientific information. For more information, visit the Blue Mountains Forest Plan Revision website:
