

Willamette Late-Successional Reserve Assessment

**USDA Willamette National Forest
USDI Salem District BLM
USDI U.S. Fish and Wildlife Service OSO**

**August, 1998
Version 1.0**

I. INTRODUCTION

REO Exemption Letter	
Background	2
Area Included In This Assessment	2
How This Assessment Will Be Used	5
Related LSR Assessments	6
Assessment Team Members	7
The Assessment Process	8

II. HISTORY AND INVENTORY OF CONDITIONS

Social Characterization	10
Historical Land Uses	10
Current Land Uses	11
Special Forest Products	16
Physical Characterization	18
Aquatic Characterization	20
Vegetation Characterization	21
Potential Vegetation	21
Late-Successional Forest Structure and Composition	25
Coarse Woody Debris	29
Successional and Structural Pathways	33
Disturbance Processes	38
Fire	38
Fire Regimes	38
Insects and Pathogens	42
Vegetation Patterns	45
Current Seral Stage Distribution	45
Current Late Seral Interior Forest Conditions	47
Comparison of Late-Successional and Interior Forest Conditions Between the Mid-1900s and Current Conditions	54
Road Density	60
LSRs Comparative Analysis	63

III. CONDITIONS OF LSRs FOR WILDLIFE AND PLANT SPECIES

Connectivity	67
Between LSR Connectivity	67
Within LSR Connectivity	76
Late-Successional Species	78
Federally Listed Species	78
Terrestrial Wildlife Species	89
Sensitive Species	94
Late-Successional Species Addressed In the FEMAT Report	99
Special Habitats	104
Noxious Weeds	107

IV. TREATMENT CRITERIA AND NEEDS

Introduction	108
Process	108
Landscape Level Triggers and Treatment Criteria	110
Regional Connectivity	110
Connectivity between LSRs	110
LSR Prioritization	111
Comparative Analysis of LSRs	111
Within LSR Triggers and Treatment Criteria	112
Landscape Blocks	112
Connectivity within LSRs	114
Road Density	115
Stand Level Triggers and Treatment Criteria	117
Stand Density and Seral Stage	117
Interior Forest Conditions	120
Coarse Woody Debris (Snags And Down Wood)	124
Recommendations for Sensitive Species or Habitats	135
Core LSRs	140
Non-Silvicultural Treatments and Activities	141

V. FIRE MANAGEMENT PLAN

Introduction	144
Fire Regimes	144
Risk Assessment and Management	148
Fire Suppression and Appropriate Response	153
Core LSRs - Fire Recommendations	155
Fire Rehabilitation	155
Post Fire Monitoring and Evaluation	155

VI. INDIVIDUAL LSR SUMMARY SHEETS

Introduction	156
Whitcomb – R0212	156
Quartzville - R0213	159
Jefferson - R0214	164
South Santiam- R0215	167
Wiley - R0216	170
Hagan - R0217	172
Horse Creek - R0218	174
Fall Creek - R0219	177
Thomas Creek - R0246	186
Waldo West- R0220	180
Hills Creek- R0221	183

VII MONITORING

Current Monitoring Efforts	188
Implementation Monitoring	188
Effectiveness Monitoring	188
