There is no better way to see the Chippewa National Forest than on a trail. Hike and view spring wildflowers, bike along a tranquil wetland, hunt grouse on a hunter/walking trail, or ski through winter woods. The Chippewa National Forest offers over 160 miles of trail through Northern Minnesota.

The hiking trails listed are for nonmotorized use unless otherwise noted. All National Forest System lands are open to camping. A number of primitive campsites are located along the trail routes. We ask that you pack out all that you bring in and help maintain the Forest for those who follow.
