

Rutland Plan Revision Meeting June 24, 2003: Public Comments

Roads Analysis Process: Class I (gated) and II (4x4) Roads

Road Comments

How about replacing the culverts on the Lincoln Mountain Government Road!

Roads that provide access for logging should be continued to be used for logging access: examples: FR 266, FR 85, FR 70, FR307, FR 278, FR 288, FR 338, FR 341, FR 60, FR 31, FR 30, FR 75, FR 273

Town roads are abandoned but are still on the books as town ownership

Need multi-use road/trail around Chittenden Reservoir

Old Stage Road is a town highway in Readsboro-turnpike-Boston to Albany; 60 foot wide road

No more wilderness

Add VAST trails to maps

On Fs Road 403 people are dumping trash during hunting season

FS Roads 97 and 23: may want to close these roads as these are wild areas

FS Road 94 is in very bad shape

Possible to connect Fs Roads 99 and 413 for multiple use

Is Fs Road 413 for multi use??

FS Roads 43 and 160 are right near streams with no buffer

Is it a Forest Service gate on Elbow Road (NW of Colton Pond)?

Suggested Corrections to Transportation System

Missing old haul roads from 1950s logging in Readsboro (north of FS Rd 266)

East of FS Road 403 in Goshen-this is not a town highway

FS Road 403 is not gated and therefore not Class 1
