

Green Mountain National Forest

Schedule of Proposed Actions

April 1 – June 30, 2004

ABOUT THIS SCHEDULE

The purpose of the Schedule of Proposed Actions is to provide a status report and short summary of proposals that are undergoing, or will undergo, environmental analysis on the Green Mountain National Forest. Issued quarterly, this Schedule is intended to provide the public with informal notice of proposed activities. Reference can be made to past or future Schedules for additional information. The publishing of this Schedule is required by Forest Service regulations for implementing the National Environmental Policy Act (NEPA).

Scoping letters asking for public input on individual proposals will continue to be mailed to interested individuals, or in some cases, the public may be notified via this Schedule. Legal notices announcing project decisions will continue to be published in the Rutland Herald. In addition, at the discretion of the Deciding Official, District Ranger Decisions may be published as legal notices in the following:

District	Newspaper(s)
Manchester	Bennington Banner Manchester Journal Brattleboro Reformer
Rochester	Randolph Herald Burlington Free Press Valley Reporter
Middlebury	Addison County Independent

The Schedule of Proposed Actions lists projects by each Ranger District. The Schedule includes the name, location, and a brief description of the proposal. Also included is the scoping date (which

indicates when public participation began or will begin), decision date (which indicates the date a decision regarding the implementation of the proposal is expected) and the current status of the proposal.

Analysis which supports any decision is documented in either an Environmental Assessment (EA), or an Environmental Impact Statement (EIS). Proposals which have been "categorically excluded" from documentation in an EA or EIS are supported by project files, which may or may not include a Decision Memo. The analysis and decision documents are kept on file at the appropriate Ranger District Office.

HOW YOU CAN BECOME INVOLVED

Your participation is important. Read through the list of proposed projects. If you want to provide site-specific comment on a project, get more information, or be placed on the project mailing list, write or call the Supervisor's Office or Ranger District Office. A generic statement of interest in all projects based on your review of this Schedule is not specific enough. It is only through site-specific input that we can be responsive to and incorporate your concerns into project development. Project specific involvement is required for standing.

Walk in Requests: Requests from the public occasionally necessitate that analysis be completed with a short turnaround time. This means that NEPA analyses may be conducted and decisions made without prior announcement in this NEPA quarterly update. Scoping efforts for such requests will be conducted as applicable in accordance to regulations. As decisions are made, they will continue to be announced by legal notices in the papers of record. Examples of walk-in requests include short-term special use permits for a recreation event on the forest.
