

National Recreation Reservation Service™ Summary of Changes from Contract Modification 1 To Contract Modification 2

Description

The National Recreation Reservation Service™ (NRRS™) contract with Modification 1, was evaluated in terms of the past year’s experience. Based on that, it was necessary to revise the approach that was taken on CLIN 3 and CLIN 4a. Contract modification 2 will combine these Sales Channels into a revised CLIN 3.

For ease of replacement and to preserve consistent page breaks, contract sections and attachments—that contain any change, even if only a few words on a single page—are presented as amended in their entirety. The contract modification number is indicated in the footer on every page.

This summary is designed to help locate the most current version of the contract sections and to identify specific changes made. It has two parts:

- A table showing the status of every section and attachment in the NRRS™ contract. “Original” indicates that a section or attachment has not been modified. “Contract Modification 1”, etc. indicates the number of the most current version for each of the sections of the contract.
- A list of the specific changes for each of the amended Sections and Attachments, indicating type of change made and location in the document (by page and paragraph number).
